Text2Vid

Converting Text to Video Simply

Ritik Yadav,

Shaily Sharma,

Sakshi Verma,

Manjul Daksh

Dr. Ambedkar Institute of Technology for Divyangjan, November 2025

Project Capabilities

Key Features of Text2Vid

- Generates engaging video content from text

Video Creation Challenges

Time-consuming and skill-intensive

- Manual editing requires expertise
- Time spent on video production
- Complicated to learn software
- Automation simplifies the process

Proposed Solution Pipeline

Steps to convert text effectively

- Input text data
- Divide into manageable chunks
- Convert text to video

Tools & Technologies

Key tools for development

- Python programming language
- API for converting text to video
- Pillow for image processing

Demo Workflow

Step-by-Step Overview

- Enter your desired text
- Render video slides smoothly

Team & Institution

Meet our dedicated project team members

Our team consists of **Ritik Yadav, Shaily Sharma, Sakshi Verma,** and **Manjul Daksh**, proud students of **Dr. Ambedkar Institute of Technology for Divyangjan** committed to innovation.
